REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claim 1 includes the limitation that the head has a pivotal connection on a generally vertical pivot axis in the vertical longitudinal plane and generally at the center of length of the head.

After further consideration, Knowlton et al. fails to teach that the pivotal connection is located at the center of the cleaning head. Knowlton teaches pivoting through a cantilevered action by means of a parallelogram structure. The parallelogram cantilever eliminates the need of having a pivot at the center of the head because the pivoting occurs off to the side of the rotating head. Additionally, the pivoting of the head does not occur in a vertical axis but actually in a horizontal axis. It would not have been obvious to one of ordinary skill in the art at the time the invention was made to combine references to achieve the claimed invention without destroying the original invention since the pivoting point would have to be modified by placement and orientation.

Also after further consideration, Thatcher et al. fails to teach the necessary elements of the claimed invention. Thatcher teaches cantilevered pivoting elements located in the middle of the cleaning machine, instead of a means to pivot the head about the center of the cleaning head. So while Thatcher's head does pivot from side to side as in the claimed invention, the pivot point is actually in the middle of the machine instead of the middle of the cleaning head. It would not have been obvious to one of ordinary skill in the art at the time the invention was made to combine references to achieve the claimed invention without destroying the original invention.

Claims 5-10 are allowed for reasons as stated in the previous office action

Art Unit: 1744

Claim 11 was indicated as allowable if written in independent form. Claim 11 has been amended to include the limitations of claim 1 and for reasons as stated in the previous office action claim 11 is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
